Welcome from the President

A heartfelt welcome to all of Michigan's Driver education and testing professionals. It has been a long time coming. We started in the middle of 2022 and tried to resurrect our association. We started with : no membership list, no driver education school provider listing, no third party testing company listing, no website ownership, no current newsletter, no conference planned, no easy way to process checks or credit cards, no easy way to make purchases, our 2021 tax extension filing was coming due , we needed a new accountant to process 2022 taxes, we had to file forms with the state and the bank, and no phone number or mail box. It was overwhelming. It still is. Our executive board has worked hard, but more needs to be done to get everything running smoothly again.

I am asking everyone that is reading this letter for your help. If you want MDTSEA to return to what you remember we were, then PLEASE send us your email address. Ask the professionals you work with and the professionals you know to send us their email addresses. We will send them MDTSEA email bulletins to let them know of MDTSEA announcements and opportunities. After our conference April 22,2023 our newsletter will be sent by email to members only. We will always send bulletins to everyone.

PLEASE HELP US SURVIVE.

Gary Matuszak

MDTSEA President
